

*Dearest Jesus,*

We come before you now for all families who are suffering the grief of miscarriage and infant loss, we pray especially for [family name] and their child [name].

We know that you created everything in love and it is only through sin that death entered into the world. The death of one near to us is painful because we were not meant to be parted in this way. We come before you now full of grief that the rift between Heaven and Earth seems so insurmountable. At the same time, we know that you have come to wipe every tear from our eyes.

We hold firm to the knowledge that you have a special love for little children and said, "let the children come to me." We stand eternally hopeful and unite our desire with yours that one day our entire family will stand at your eternal banquet, white-robed, and praising you. Help each member of our family to grow closer to you each day.

We ask you, your Blessed Mother, and all the angels and saints to hold tight to our little one, [name] until we can join them in glory.

*Amen.*
